- Dan Chenok, senior fellow, IBM Center for The Business of Government**  
• **Format:** MP3 Mono 22kHz 32Kbps (CBR)
- Interview from In Depth with Francis Rose on Federal News Radio**

If someone told you that making security and privacy standards in information sharing tighter would guarantee the future of information sharing, that might seem counterintuitive. But both security and privacy are key elements for sustaining the information sharing environment. That's according to Dan Chenok, Senior Fellow in the IBM Center for The Business of Government.
